

# How can I find good accommodation in the Netherlands?

Arrange your accommodation soon after arriving. Then you have a safe basis:

Do this with your employment agency or the company you are working for. Or arrange your own accommodation through a:

- ✓ Landlord;
- ✓ Private organisation;
- ✓ Employer.

Make agreements beforehand about the rent of your accommodation.

What costs are involved in renting my accommodation?

- ✓ **Always:** Fixed costs for gas, electricity and water. Sometimes included in the rent.
- ✓ **Sometimes:** Additional costs for internet or home contents insurance, for example.

Ensure you live safely in the Netherlands.

- ✓ Report nuisance, fire hazard or inadequate facilities to your landlord.
- ✓ The information card in your accommodation shows what to do in the case of nuisance or emergencies.

A landlord can enter your accommodation.

- ✓ But not without first knocking on the door or ringing the bell.
- ✓ You give him permission to enter, to carry out repairs or check your accommodation.
